As a Bachelor of Informatics Engineering graduate with 1 year of professional experience and a strong interest in software engineering and data science, I am skilled at developing website applications using Laravel. I'm also proficient in UI/UX design, translating user requirements, as well as analyzing and managing data. I have experience working as a Software Engineer at RSPP and LUI, and as a Project Manager for the ARAS website project. Through these experiences, I have developed the ability to work both independently and collaboratively while strengthening my critical thinking and design thinking skills. High dedication and hard work are values that I consistently apply in completing every project and adapting to new technologies and challenges in software development.

EDUCATION

Politeknik Negeri Malang Sep 2021 – Jul 2025
D4 Informatics Engineering – GPA 3.70
Activity: HMTI work program and competition, Kost.In, and Techlap project

SMAN 1 Baleendah Jul 2018 – Aug 2021
Science Major – Ijazah Grade 91.0
Activity: Cendekia Salim Mulia Organization and Leader of KARBIT Baleendah Organization

WORK EXPERIENCE

Rumah Sakit Pusat Pertamina Jakarta Selatan Apr 2025 – Apr 2026
Full-time Software Engineer

- Worked on 14 medical modules hemodialysis, pediatrics, vital signs, neonatal intensive care, anesthesia, nutritional care, transfusion, blood glucose, pre- and post-operative care.
- Using Laravel as a website development tool and collaborate using Gitlab as version control software to make sure zero merge conflicts and 100% works as intended on development and production.
- Adapted with 5 soft-skills such as critical thinking skills, adaptability, time management, project management, and so on.
- Tasked with understanding and conceptualizing the needs of 3 main users (doctors, nurses, and pharmacists) through discussions, meetings, and similar communications.

PROFESSIONAL EXPERIENCE

Rumah Sakit Pusat Pertamina Jakarta Selatan Feb 2024 – Aug 2024
Part-time Software Engineer

- Worked on 5 medical modules hemodialysis, neonatal intensive care, nutritional care, transfusion and blood glucose.
- Using Laravel as a website development tool and collaborate using Gitlab as version control software to make sure zero merge conflicts and 100% works as intended on development and production.
- Adapted with 5 soft-skills such as critical thinking skills, adaptability, time management, project management, and so on.
- Tasked with understanding and conceptualizing the needs of 3 main users (doctors, nurses, and pharmacists) through discussions, meetings, and similar communications.

Lintang Utama Infotek Jakarta Timur Feb 2024 – Jan 2025
Intern Software Engineer

- Collaborating on website project that revolve around digital library. Utilizing Odoo as primary software tools for streamlined operations and efficient management
- Working on websites and formulating database and backend concepts in the information systems developed, ensuring 100% functionality.
- Applying growth mindset and computational thinking in the learning and working process in order to improve overcome the challenges.

ARAS Website

Nov 2023 – Dec 2023

Project Manager & Website Developer

- Had a role as project manager of a 3-member team, while also create all the necessary project documentation.
- Created a decision support system website for a case study of a school looking for the best teacher with 5 qualifications and parameters using the ARAS method.
- Developed a website using Laravel and MySQL as its backend, actively using Github for collaborating and controlling the version history to prevent bug and 0% margin of error.

KSnap Mobile Apps

Nov 2023 – Dec 2023

Mobile Developer

- Designed and developed an android-based ID card validation application that can recognize and extract characters from ID cards using OCR (Optical Character Recognition). Leveraging 10 datasets of KTP, in the development of this model within the application and obtaining a 89% text extraction accuracy result.
- Created the application, preprocessing method, and machine learning model (CNN) with 4 other team members, and effectively delegated tasks to them.
- Using Flutter as an android development framework, OpenCV in preprocessing, and Keras TensorFlow for CNN architecture machine learning model.

Proyek Sahabat Tani

Mar 2023 – Jul 2023

Web Developer

- Worked with a team of 5 members and helped making proposals, project reports, and application testing reports.
- Developed a transactional and operational digitalisation website for farmers that can facilitate them in recording crop yields per period, procurement of equipment, finance, and so on.
- Creating a website using Laravel and MySQL also Github as a version control and collaboration tool.

ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Teknologi Informasi (HMTI) POLINEMA

Feb 2023 – Feb 2024

Head of Interest and Talent Staff

- Controlling and directing HMTI's non-academic activities and events
- Taking responsibility of bureaucracy and liaison with lecturers and department directors
- Facilitating workshops and seminars to enhance members' skills and interests

Himpunan Mahasiswa Teknologi Informasi (HMTI) POLINEMA

Feb 2022 – Feb 2023

Organizing Committee

- Participate and contribute in every work program held by the organization
- Active in discussion, presentation, communication, and conceptualization of ideas in working with a team
- Coordinating logistics and resources for various organizational events and programs

SKILL AND INTEREST

- **Technical Skills:** Logical Programming, Data Structure & Algorithm, Developing Native Website, Laravel, Data Warehouse, SQL Server, Tableau, Google Colab, Microsoft Office, Developing Machine Learning Model.
- **Programming Language:** Java, PHP, JavaScript (JS), Python.
- **Software Tools:** Vscode, Flutter, Git, Figma, PuTTY, Toad for Oracle, Docker.
- **Soft Skills:** Critical Thinking, Problem Solving, Team Management, Adaptability, Creativity.
- **Interest:** Web Developer, UI/UX Designer, Frontend Developer, Fullstack Developer, Software Developer, Programmer, Quality Assurance, Data Analyst, Data Engineering.
